

# Creating and Opening images taken using the trap.NZ App camera

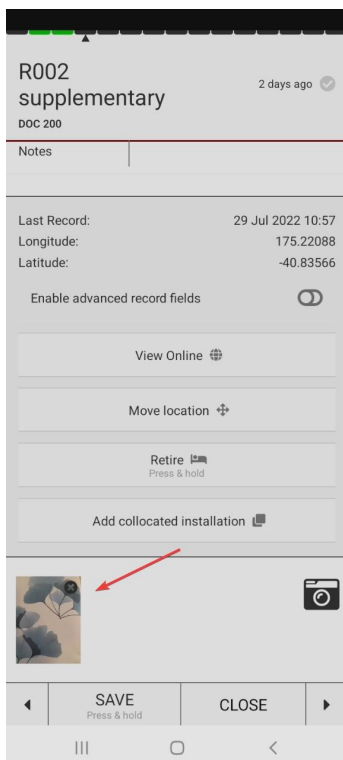

This is helpful to projects wanting a visual reference of installations or their surrounds

Projects may use images for many reasons, to show points of interest, signage, vandalism, or catches, the options are endless. The trap.NZ App allows you to create an image for your records, that can be referred to at a later date.

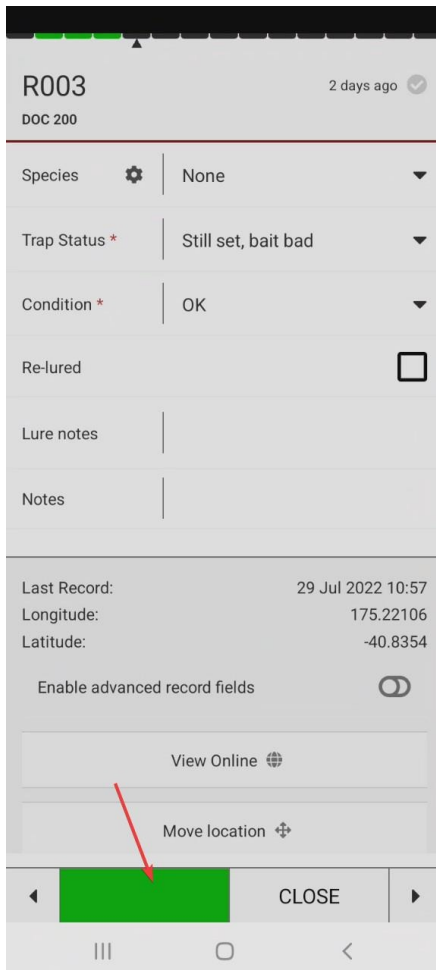

1. To create an image, use the individual installations recording page to find the camera icon and capture an image

2. Your image will display for you to review

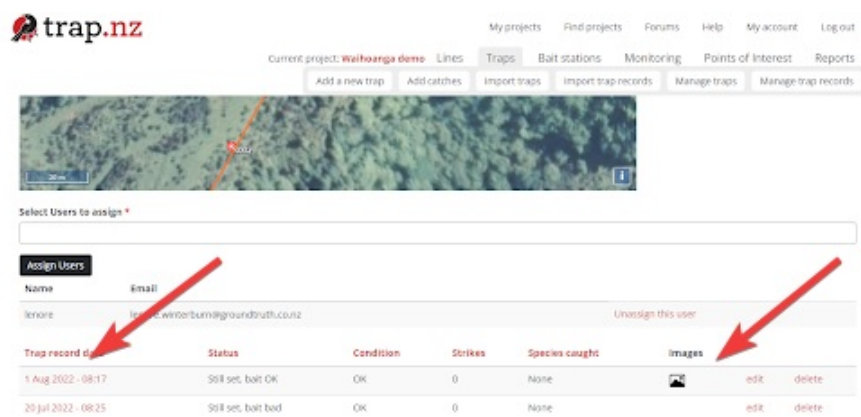

3. SAVE AND HOLD to save the image to your records

A mobile application interface for a trap record. At the top, it shows 'R003' and 'DOC 200'. Below this are several fields: 'Species' (None), 'Trap Status' (Still set, bait bad), 'Condition' (OK), and a 'Re-lured' checkbox. There are also sections for 'Lure notes' and 'Notes'. At the bottom, it shows 'Last Record: 29 Jul 2022 10:57', 'Longitude: 175.22106', and 'Latitude: -40.8354'. A red arrow points to a green button labeled 'SAVE AND HOLD' at the bottom of the screen.

Using the [trap.NZ website](https://trap.nz) select the installation you have saved the image to and open the records for it.

4. After selecting the installation you will see the pic icon, click on this to open the recorded image

A screenshot of the trap.nz website. The top navigation bar includes 'My projects', 'Find projects', 'Forums', 'Help', 'My account', and 'Log out'. The current project is 'Waihoanga demo'. Below the navigation bar, there are several buttons: 'Add a new trap', 'Add catches', 'Import traps', 'Import trap records', 'Manage traps', and 'Manage trap records'. A map shows the location of the trap. Below the map, there is a table of trap records. A red arrow points to the 'pic' icon in the 'Images' column of the first record. Another red arrow points to the 'edit' button in the 'Images' column of the second record.
