

# Downloading CSV files from your project

You can download your project information to back up your project files. The download file will show in CSV format

## Downloading installations

To download records choose the type of installations you want the information for

Step 1 Click on the installation type

Step 2 Select the “manage “ type wanted, in this case, trap

## Traps

[Take me back to the old view.](#)

<input type="checkbox"/>	shields	BT 200	pretend	16 May 2023	Lenore Winterburn	2023-06-06	
<input type="checkbox"/>	demo trap	DOC 200	Ridge line	24 May 2023		2023-06-06	
<input type="checkbox"/>	moving trap	DOC 200	Ridge line	31 May 2023	Lenore Winterburn	2023-06-06	
<input type="checkbox"/>	moving 2	DOC 200	Ridge line	31 May 2023	Lenore Winterburn	2023-06-06	

Note: traps with records attached cannot be deleted. In this case, either Remove the trap instead, or delete the records first.

[Download CSV](#)

This download will now appear on your file menu under the downloads

To download the records attached to the installations repeat steps 1, 2, and 3, however, this time select the “manage records” tab in step 2
