

Finding a project to join

A project allows a group of people to collaborate on managing installations within a geographical area.

Hopefully, there is already an existing project close to the area you are interested in joining.

After verifying your account you can contact the organiser of the nearby project and ask for permission to join.

Or create your own by selecting an area you will be monitoring

For video help, click the youtube link here <https://www.youtube.com/watch?v=CxH3axNkr78>

Joining a project

1. Select the [find projects](#) tab

2. This will open a map of New Zealand, choose the area you are wanting your project to be located in, and This will open up the projects in that area selected. or search for the project by name if you know it.

Find projects

Find project by name

Apply Reset

Project name	Description	Websites	Join
Castledown's Wetlands			Join
KNE Larcom's Homestead			Join
KNE PARGUS & Carloom			Join

3. Once you select an area the map will zoom into any discoverable projects in that area. If you click on the blue flag icon it will open to reveal the name of the project.

Find projects
