

Using Advanced field settings app

This setting allows for the option to collect more data than the standard settings while also [enabling contractor mode](#)

1. Open the settings menu on your trap.nz phone app and under the sub-heading Records select [Enable advanced record fields](#)

2. In the advanced field select Enable Contractor Mode

3. As you service your installations after you select the species, you will now have available to you extra fields that allow you to add maturity and sex of the catch

The screenshot shows a data entry form for installation 'R001'. At the top, it displays 'R001', 'DOC 200', 'ridge', and a timestamp '23/08/2022 13:35:00'. There is a 'No records' warning with a red triangle icon. The form contains several fields: 'Species' (set to 'Rat'), 'Sex' (set to 'Unknown'), 'Life Stage' (set to 'Adult'), and 'Condition' (set to 'OK'). There is a 'Re-lured' checkbox which is currently unchecked. Below these are 'Lure notes' and 'Notes' text input fields. At the bottom, it shows 'Coords: -40.83530, 175.22124' and a toggle for 'Enable advanced record fields' which is turned on. A 'View Online' button with a globe icon is also present. The bottom navigation bar has four buttons: a left arrow, 'SAVE' (with 'Press & hold' below it), 'CLOSE', and a right arrow.
